Re: Framework for Antigonish as a Leading Sustainable Community

Dear Mr. Malhotra

I am writing to express my support for the *Framework for Antigonish as a Leading Sustainable Community*. I consider this framework to be an important step in the development of a long-term plan for community sustainability, and as such, I believe this framework will serve to guide the community as it moves into the future.

I have reviewed the framework and feel that it demonstrates a good understanding of the process required to develop a path forward. In addition, the framework also includes several important elements that will help to facilitate the preparation of the both the Integrated Community Sustainability Plan (ICSP) and the Plan for Antigonish as a Leading Sustainable Community. In particular the *Strategic Goals, Shared Visions, Project Strategy, and Project Management* sections of the framework.

I would like to congratulate you on the work you have done to date on the framework, and encourage you to continue with your efforts to promote long-term sustainable outcomes for the community of Antigonish.

Yours sincerely,

Graham Fisher
