To Whom it May Concern:

Please be advised that Antigonish Town Council fully supports the framework that has been established for creating a more sustainable community in Antigonish. To this end the following motion was made by Town Council at its July 9, 2007, meeting:

That the Town of Antigonish accept the framework for Antigonish as a leading sustainable community.

It is now recognized throughout Nova Scotia and Canada just how important it is to establish sustainable communities for the present and especially for the future. We must all be very aware of our surroundings, knowledgeable of our environment and most importantly, committed to planning for and fostering sustainable development wherever we can. I trust that these comments will serve to state Town's Council's position on overall sustainability and the importance of linking our economy, our society and our environment together.

Yours very truly,

Brian R. MacNeil
