

How do I get my driveway changed?

Download a copy of the Municipal Service Permit, complete the form and attach a detailed description of your proposed changes to your driveway. Note site plan with measurements. The permit is free. However, there is a cost associated to provide a curb cut. The cost needs to be accessed by public works based on the work required to cut the curb. Please contact 863-3237 or 863-2956 if you have any questions.
