

WHITE LIGHTING POLICY

It shall be the policy of the Town of Antigonish to involve itself in assisting and promoting White Lighting efforts in the downtown area. To this end the Town will purchase light bulbs for downtown use and will sell these bulbs to participating merchants on a cost basis. Electric Utility personnel will then be engaged to replace bulbs along Main Street as is necessary and when it is practical for them to do so. The Town or its Electric Utility assumes no responsibility for the electrical systems at these properties and to this end a notice will be circulated periodically to participating merchants. This notice will in essence advise the property owner that even though the Town is involved in a lighting program that the owner is responsible for their own property and for ensuring that electrical systems are inspected and maintained to ensure safety is achieved.

Approved by Town Council September 20, 2004
