

Antigonish – General Labours (Contract) Job

Why you should join the GP JOULE team:

GP JOULE PV Canada Corp. North America is a subsidiary of Goldbeck Solar, a diversified renewable project developer and Engineering, Procurement and Construction (EPC) service provider headquartered in Germany with offices across Europe, the US and Canada. The North American team is focused on solar project co-development as well as full turnkey EPC services. Headquartered in Toronto, Ontario, Canada, with satellite offices in Calgary, Alberta and Halifax, Nova Scotia and we specialize in ground mount and rooftop solar photovoltaic installations for both commercial and utility-scale projects.

As a growing international private company, we value authenticity, fair business practices, innovation, quality, and zest for life. We look for highly spirited people embracing those same core values to join us! We are dedicated to promoting solar renewable energy in North America and reducing our carbon footprint.

We are currently seeking **General Labourers (Contract)** based in **Antigonish, Nova Scotia**

The successful **General Labourer** will be responsible for various manual tasks, be dependable, safety-minded, and have a passion for the Renewable Energy Industry.

Responsibilities and duties would include:

- Installing racking systems and solar panels
- Using hand tools, both manual and powered, to install racking and modular components
- Inspecting solar panel racking components
- Helping with site upkeep and cleaning as required
- Able to work in a team setting as well as independently
- Strong communication skills
- Ability to readily accept and apply direction from supervision
- On-the-job training provided as needed
- Workers may be considered for additional roles as the project progresses

We would like to review your application if you have the following qualifications:

- Prior construction/trades experience an asset
- High school diploma
- A valid class 5 license and/or reliable transportation
- Must have Forklift and Telehandler experience or license
- Basic understanding of construction principles and procedures
- Willing to learn and adhere to all safety rules and regulations
- Be in good health and physically fit
- Familiarity with the use of hand and power tools
- Able to work outside in various weather conditions

Where you will be working, your work schedule, and other important information:

The base hours of work are a regular 48-hour work week, Monday to Saturday, with the potential for extended work hours based on business needs.

Job Site:

- Uneven ground level
- Obstructed pathways

Climatic/Environmental Conditions at Job Site:

- Predominately outdoor climate
- May be exposed to extreme hot or cold weather
- Various noise levels caused by tools, machinery, equipment, etc.
